

Search strategy library: testing and evaluating a resource for sharing literature searches and blocks:
EAHIL 2019, 19th June, session F-05

Aim: to evaluate the Search Strategy Library. The data will be used to develop/improve the strategy

	Very useful/good	Useful/good	Not useful/good	Not very useful/good
Would you find this resource useful?				
Is this resource easy to use?				
Is the quick search filter aspect useful?				
Are the fields in the quick search suitable? Please suggest what would better.				
Is the keyword aspect useful?				
The content is added by the user, then approve for required fields – is this approach and fields required on the form sufficient to verify reliability?				
How can this resource be improved?				
How much would you pay for this resource/year? (to cover running costs for support)	Maximum		Minimum	
Any further comments?				

Thank you for completing this evaluation, for further questions please email:
